INTRODUCTION

Welcome to One Click Handling – a brand-new cargo handling organisation built to support the UK's freight forwarding community with a range of asset-driven services for general and niche cargo types, 24 hours a day, 7 days a week.

Our impressive service portfolio covers a broad spectrum of logistics elements, including transportation, warehousing and storage, pick and pack, pharma traffic support, customs brokerage, security screening, and more – all designed to position us as a vital partner for forwarding companies.

We bring extensive experience from many years in the logistics industry, ensuring that our customers receive first-class service. Our team is highly motivated to develop quality, long-lasting relationships with customers.

WE CONSIDER OURSELVES TO POSSESS QUALITIES OF **PROFESSIONALISM, HONESTY, RESPONSIBILITY, AND FLEXIBILITY**, ALL OF WHICH MAKE UP OUR INHERENT NATURE AND IDENTITY.

SECURITY SCREENING

At the heart of our growth strategy is a steadfast commitment to accreditation and infrastructure investment. A standout example is our official designation as a Regulated Agent, awarded under the Aviation Security (Air Cargo Agents) Regulations 2024—a mark of trust and compliance in today's air freight landscape.

Complementing this is our newly installed, state-of-the-art freight X-ray system, purpose-built for cargo screening. With the capability to scan items up to 180cm x 180cm and 3,000kg, this high-definition detector penetrates steel up to 5cm thick, dramatically reducing the need for secondary screening.

The result? Faster processing, lower costs, and greater peace of mind for our customers. For oversized or complex consignments, we also offer a full suite of ETD and FREDDS solutions—ensuring every shipment moves securely, efficiently, and in full regulatory alignment.

Benefits

*WE ENSURE SECURE, EFFICIENT CARGO HANDLING THROUGH
REGULATED AGENT STATUS AND ADVANCED X-RAY SCREENING.*

UK & EU TRANSPORT

With deep industry expertise and a commitment to reliability, our transport team is your trusted partner for seamless road logistics. We offer a comprehensive range of services tailored to your needs—from first and last mile coverage to time-critical deliveries, express shipments, groupage, and overnight options.

Whether you're moving high-value goods or oversized cargo, we can arrange specialist vehicles including tail lifts, HIABs, Moffetts, and flatbeds, and more. Let us take the pressure off your supply chain. One email is all it takes to get moving.

OUR TEAM CLOSELY MONITORS THE MOVEMENT OF THE CARGO AT EVERY STEP OF THE JOURNEY.

WHITE GLOVE SERVICES

When it comes to fragile or high-value cargo, our premium final-mile service delivers more than just goods—it delivers confidence. Designed for precision and care, we offer a full suite of specialist options including air-ride vehicles, multi-person delivery teams, and white-glove services such as unpacking, assembly, installation, and debris removal.

Perfect for retail fitouts, high-end installations, and bespoke deliveries anywhere in the world, each item is handled with meticulous attention—aligned to your exact specifications and design intent. From first touch to final placement, we ensure your cargo arrives not just safely, but seamlessly.

OUR WHITE GLOVE SERVICE ENSURES **CAREFUL, EXPERT HANDLING WITH PREMIUM DELIVERY FEATURES** FOR FRAGILE OR HIGH-VALUE ITEMS.

ETSF BONDED WAREHOUSE

Our ETSF Bonded facility offers importers a strategic advantage—allowing goods to be stored securely without immediate customs clearance. This means duty and VAT are deferred until items enter free circulation in the UK, supporting stronger cash flow management and operational flexibility. Ideal for shipments destined for re-export, our bonded setup eliminates the need for import clearance, streamlining your global movements.

And when cargo is ready for uplift or delivery, our customs clearance badges ensure fast, frictionless processing—keeping your freight on schedule and your supply chain moving. Efficient. Compliant. Cost-effective. That's bonded warehousing, redefined.

OUR ETSF BONDED WAREHOUSE OFFERS DUTY-DEFERRED STORAGE AND SEAMLESS HANDLING FOR IMPORTS, RE-EXPORTS, AND CUSTOMS EFFICIENCY.

WAREHOUSING & STORAGE

Our London Heathrow facility sets a new benchmark in air cargo warehousing. Nestled just 1km from the airport, within the heart of Heathrow's cargo operating zone, it offers rapid access to LHR terminals and the UK's motorway network—ensuring your goods move swiftly and securely. The newly refurbished 1,100m² warehouse features modern offices and a high-security environment, with 400 pallet positions and a total storage capacity exceeding 500,000kg.

Every item arriving is promptly checked in, stored with precision, and made readily available for onward processing or dispatch. We provide regular, transparent reporting, giving you full visibility and confidence that your inventory is in expert hands—streamlined, safeguarded, and always ready to move.

WE WORK TIRELESSLY TO **ENSURE** THAT YOUR CONSIGNMENT IS **DELIVERED ON TIME AND IN PERFECT CONDITION.**

PICK & PACK

Complementing our storage product is our comprehensive Pick & Pack service. Stock items are picked and packed on the day of the order and dispatched through a range of cost-effective final-mile delivery solutions, tailored to each client's requirements.

We can work with your branded packaging materials or provide a wide range of professional-quality options to ensure your customers receive orders in the best possible condition. Our up-to-date software provides live stock information and delivery tracking.

OFFER OUR CLIENTS A **DEPENDABLE, QUALITY-DRIVEN** PARTNER.

TEMPERATURE CONTROLLED TRANSPORT

We provide reliable, chilled and frozen road transport solutions tailored to meet the stringent demands of pharmaceutical and perishable logistics. Our Class 1 refrigerated trailer, rated from -20°C to $+20^{\circ}\text{C}$, ensures precise temperature control throughout transit. Backed by Good Distribution Practice (GDP) compliance, our operations safeguard product integrity across the supply chain.

We also offer access to a wide range of specialist vehicles and validated cold storage options, supporting end-to-end temperature-sensitive transport with full regulatory alignment. Whether you're moving medicines, vaccines, or perishables, we deliver with confidence, care, and compliance.

WE PROVIDE RELIABLE TEMPERATURE-CONTROLLED TRANSPORT WITH **FLEXIBLE CHILLED** AND FROZEN OPTIONS ACROSS THE UK AND EUROPE.
